SUMMARY

Versatile banking professional with 3+ years at a leading pan-African bank, spanning customer service, regulatory compliance (CBN, KYC / AML), and operations. Comfortable across customer due diligence, transaction monitoring, core banking systems, cross-selling, and data reporting — adaptable to wherever the business needs strength. Increasingly digital, with hands-on AWS cloud training and Python automation skills that bring a technology-forward edge to traditional banking operations.

CORE COMPETENCIES

Compliance & Financial Crime: KYC / AML, Customer Due Diligence (CDD), Enhanced Due Diligence (EDD), transaction monitoring, fraud detection, sanctions & PEP screening, regulatory reporting, CBN compliance, chargeback dispute resolution

Operations & Customer Service: Flexcube core banking system, account opening & reactivation, complaint resolution, SLA management, needs-based cross-selling, stakeholder management

Process & Data Analytics: Process improvement, SOP development, business analysis, digital transformation, ETL, business intelligence (BI), CRM, data validation

Digital & Technical: AWS cloud fundamentals (EC2, S3, IAM), Python automation, SQL, Microsoft Excel & Power BI, REST API development

EXPERIENCE

Customer Service Officer — Access Bank Nigeria Plc, Lagos Nov 2022 – Dec 2025

- Attended to 80+ walk-in customers daily, resolving Tier 1 complaints within SLA at a 95% first-contact resolution rate, in full compliance with CBN, KYC, and AML guidelines.
- Processed account opening and reactivation requests, conducting CDD, PEP, and sanctions screening in line with CBN regulatory and internal AML / CFT frameworks.
- Supported transaction monitoring and fraud detection, escalating suspicious activity reports in accordance with internal compliance protocols.
- Drove a 40% increase in digital adoption by onboarding customers to digital banking via the Flexcube core banking system, reducing branch lobby congestion.
- Cross-sold banking products to walk-in clients, contributing to monthly revenue targets through needs-based selling.

Administrative Assistant — Hybee Xchange, Lagos Nov 2020 – Aug 2021

- Managed day-to-day administrative operations and cross-functional coordination through structured standard operating procedures (SOPs).
- Maintained property and client databases in Excel at 100% data accuracy through rigorous validation, and managed listings across multiple platforms to increase visibility by 35%.

Data Analyst Intern (NYSC) — Lagos State Internal Revenue Service Nov 2019 – Nov 2020

- Cleaned and migrated tax records into digital formats, supporting the agency's ETL transition to its e-Tax platform.
- Entered and validated taxpayer data (TINs, PAYE codes, income brackets) at 98% accuracy, and built Excel / BI summary reports and dashboards supporting audit readiness.

DIGITAL SKILLS & CERTIFICATIONS

- Cloud Computing Program — Techcrush, Cohort 6 (2026); AWS Certified Cloud Practitioner (in progress).
- Link Saver — designed and built a Python / FastAPI REST API with PostgreSQL and secure authentication, showing initiative to automate and modernize workflows. github.com/kayefi737/Link-Saver
